

## Product description

Self adhesive foam strip for use in combination with UNI-Rivets to fix EQUITONE façade panels to a metal support frame.

The foam strip is designed to create a watertight seal with a minimal amount of force. It also minimizes vibrations of the façade panel and prevents contact between uncoated fibre cement and aluminium sub frame. Once in place, the foam will be able to handle normal joint movement due to thermal and hygric expansion and shrinkage or environmental forces.

**ARTICLE NUMBER:** 4085481

## 1. Technical Characteristics

Tape material	PU elastomer
Dimensions (w x h)	9 x 5 mm
Density	30 kg/m <sup>3</sup>
Weight	± 1.35 g/m
Colour	dark grey
Flame rating	HF-1 self-extinguishing acc. UL94
Tensile strength (ISO 1798)	≥ 95kPa
Elongation (ISO 1798)	≥ 115 %
Adhesive	solvent free
Liner	PE film, white, thickness 60 µm
Service temperature	- 40 to + 90 °C
Application temperature	+ 5 to + 50 °C
Apply to clean, dry surfaces only	

## 2. Storage

Material should be stored dry, dust free and at temperature above 10°C to guarantee optimal gluing performance in application.

Shelf life : max. 18 months

## 3. Packaging

100 m per roll

## 4. Processing

Consult the application guidelines for façade panels rivet fixed on a metal sub-construction.
