

EQUITONE [inspires] is an article within the meaning of Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations. Safety data sheets do not have to be provided for articles.
Even if this article is not subjected to any obligation to classify or label (Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations), Etex Group has decided to provide information about identification, first aid and release measures, exposure control, disposal and transport.
This safety information sheet gives details to industrial and professional users on the safe use of this article.

SECTION 1: Identification of the article and of the company/undertaking

1.1. Product identifier

Product form : Article
Product name : EQUITONE [inspires]
Type of product : fibre-cement flat sheet
Product group : Trade product

1.2. Relevant identified uses of the Article and uses advised against

1.2.1. Use of the Article

Main use category : Professional use
Use of the substance/mixture : Can be used in several ventilated applications

1.2.2. Uses advised against

Not applicable.

1.3. Details of the supplier of the safety data sheet

Manufacturer

Etex Poland sp. z o.o.
ul. Przeclawska 8
03-879 Warszawa - POLAND
T +48-22 212 2280

Sales organisation

Equitone
1731 Fred Lawson Dr
37801 Maryville TN - UNITED STATES
T +1 865-268-0654
info.usa@equitone.com - <https://www.equitone.com/en-us/>

1.4. Emergency telephone number

Emergency number : Please contact a regional poison center or emergency telephone number.

SECTION 2: Hazards identification

2.1. Classification of the article

Not applicable : articles are not subjected to any obligation to classify (Art 4 of Regulation (EC) No 1272/2008)

2.2. Label elements

Not Applicable according to the CLP Regulation No (EC) 1272/2008.

2.3. Other hazards

Other hazards which do not result in classification : The installed product in its final application:
No dangers known.
Hazards due to mechanical processing (drilling, sawing, grinding, etc.) of the product:
Temporary irritation of exposed mucous membranes (eyes, throat, bronchial tubes).
Prolonged skin contact may cause mild skin irritation in sensitive individuals.
As with most organic and non-organic dust, inhalation of excessive dust concentrations over long periods of time can cause chronic inflammation of the bronchial tubes (occupational bronchitis).
As this product is mainly made of natural raw materials, it may contain traces of quartz. If the product is mechanically processed (cutting, grinding, drilling, etc.), the resulting dust may contain quartz particles.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Not applicable

3.3. Article

Components : This product is not a substance or preparation, but a finished article. The panels consist of cement, mineral fillers, cellulose, natural organic fibres, synthetic organic reinforcing fibres and a colour digital printed surface covered with an UV-cured functional top layer.

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : (only for machining). Remove person to fresh air and keep comfortable for breathing. If symptoms persist, call a physician.
First-aid measures after skin contact : (only for machining). Wash skin with plenty of water. If skin irritation continues, consult a doctor.
First-aid measures after eye contact : (only for machining). Do not rub the eye. Rinse immediately with plenty of water.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation : As with most types of nuisance dust, excessive inhalation of dust may cause irritation of the throat and bronchial tubes and lead to coughing.
Symptoms/effects after skin contact : May cause temporary irritation/skin rash. Repeated exposure may cause skin dryness or cracking. When moistened by water or sweat, the Portland cement component may lead to skin inflammation, contact dermatitis or even delayed onset burns due to high alkalinity.
Symptoms/effects after eye contact : Eye contact with dust may lead to transient eye irritation or inflammation.
Symptoms/effects after ingestion : Not expected to present a significant ingestion hazard under anticipated conditions of normal use.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : All extinguishing media allowed. Use extinguishing media appropriate for surrounding fire.

5.2. Special hazards arising from the substance or mixture

- Fire hazard : Packaging may burn. The product is classified as non- or limited combustible depending on the country. See fire classification (EN13501-1) in the Material Information Sheet.
- Explosion hazard : Product is not explosive.

5.3. Advice for firefighters

- Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

- General measures : Minimise generation of dust. See Section 8 for information on personal protection equipment.

6.1.1. For non-emergency personnel

Not applicable.

6.1.2. For emergency responders

Not applicable.

6.2. Environmental precautions

Not applicable.

6.3. Methods and material for containment and cleaning up

- Methods for cleaning up : Shovel up small pieces. Dampen down any dust before putting into appropriate skips.

6.4. Reference to other sections

Not applicable.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

- Additional hazards when processed : Dust, generated during machining and processing must be exhausted and the regulatory occupational exposure limits (workplace exposure limits in UK) for total and respirable dust and respirable quartz dust must be respected.
- Precautions for safe handling : The aim is to avoid dust during mechanical processing through technical and organisational measures such as:
ensuring suitable filters with dust extraction when using power-driven machining tools;
prohibiting dry sweeping; ensuring adequate ventilation at the workplace; regular cleaning of operating equipment; hosing down or damp wiping of working areas; Avoidance of skin and eye contact.
- Hygiene measures : Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities

- Storage conditions : Store in a well protected storage area. The products must be covered and protected from sunlight and rain, including during transport.

7.3. Specific end use(s)

For more information regarding the use of this product, please refer to our technical information or contact the sales department in your region.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1 National occupational exposure and biological limit values

Not applicable.

8.1.2. Recommended monitoring procedures

Not applicable.

8.1.3. Air contaminants formed

Not applicable.

8.1.4. DNEL and PNEC

Not applicable.

8.1.5. Control banding

Not applicable.

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Appropriate engineering controls:

Ensure vacuum dust exhaust with correct filter when using motorised machining tools. When machining boards (drilling, cutting, sanding, etc.), respect Occupational Exposure Limits (OEL) or Workplace Exposure Limits (WEL in the UK) for inhalable and respirable dust and for respirable quartz dust. Check the latest Occupational Exposure Limits (OEL) or Workplace Exposure Limits (WEL in the UK) for airborne contaminants that are applicable in your country.

8.2.2. Personal protection equipment

Personal protective equipment:

Wear personal recommended protective equipment during mechanical processing.

Personal protective equipment symbol(s):

8.2.2.1. Eye and face protection

Eye protection:			
Avoid contact with eyes. Use safety glasses whenever tools are used and dusts are produced.			
Type	Field of application	Characteristics	Standard

8.2.2.2. Skin protection

Skin and body protection:	
Avoid contact with skin. Use working clothes and gloves to protect against mechanical injury and direct skin contact.	
Type	Standard

Hand protection:
protective gloves

8.2.2.3. Respiratory protection

Respiratory protection:

Avoid breathing dust. Use appropriate respiratory equipment when exposures are likely or can be foreseen to exceed the Occupational Exposure Limits or Workplace Exposure Limits for the UK (e.g. for exposures up to 10 times the OEL (WEL) use at least a P2 type dust mask. For higher exposure, use a P3 type mask).

8.2.2.4. Thermal hazards

Not applicable.

8.2.3. Environmental exposure controls

Not applicable.

SECTION 9: Physical and chemical properties**9.1. Information on basic physical and chemical properties**

Physical state	: Solid
Colour	: According to product specification.
Appearance	: Board.
Odour	: odourless.
pH	: 10 – 12
Density	: $\approx 1750 \text{ kg/m}^3$

9.2. Other information**9.2.1. Information with regard to physical hazard classes**

Not applicable.

9.2.2. Other safety characteristics

Not applicable.

SECTION 10: Stability and reactivity**10.1. Reactivity**

The product is non-reactive under normal conditions of use, storage and transport.

10.2. Chemical stability

Stable in use and storage conditions as recommended in item 7.

10.3. Possibility of hazardous reactions

Not applicable.

10.4. Conditions to avoid

Not applicable.

10.5. Incompatible materials

Strong acids.

10.6. Hazardous decomposition products

Not applicable.

SECTION 11: Toxicological information**11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

Acute toxicity (oral)	: Not classified
Acute toxicity (dermal)	: Not classified
Acute toxicity (inhalation)	: Not classified

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Additional information	: No acute toxicity with the exception of temporary irritation of exposed mucous membranes (eyes, throat, bronchial tubes) and skin irritation during processing.
Skin corrosion/irritation	: Not classified.
Serious eye damage/irritation	: Not classified.
Respiratory or skin sensitisation	: Skin sensitization: Not classified.
Germ cell mutagenicity	: Not classified
Carcinogenicity	: Not classified
Reproductive toxicity	: Not classified
STOT-single exposure	: Not classified.
STOT-repeated exposure	: Not classified
Aspiration hazard	: Not classified

11.2. Information on other hazards

Not applicable.

SECTION 12: Ecological information

12.1. Toxicity

Hazardous to the aquatic environment, short-term (acute)	: Not classified
Hazardous to the aquatic environment, long-term (chronic)	: Not classified
Not rapidly degradable	

12.2. Persistence and degradability

Not applicable.

12.3. Bioaccumulative potential

Not applicable.

12.4. Mobility in soil

Not applicable.

12.5. Results of PBT and vPvB assessment

Not applicable.

12.6. Endocrine disrupting properties

Not applicable.

12.7. Other adverse effects

Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Regional waste regulation	: Dispose of in accordance with relevant local regulations
Waste treatment methods	: Handle as construction industry waste.
Product/Packaging disposal recommendations	: Dispose in a safe manner in accordance with local/national regulations.

European List of Waste (LoW, EC 2000/532) : Please refer to the European list (Decision N° 2000/532/CE) to identify the wastes appropriate waste number.
10 13 11 - wastes from cement-based composite materials other than those mentioned in 10 13 09 and 10 13 10
17 01 01 - concrete
17 09 04 - mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03

SECTION 14: Transport information

Not classified as dangerous in the meaning of transport regulations
In accordance with ADR / IMDG / IATA / ADN / RID

14.1. UN number or ID number

UN-No. (ADR) : Not regulated.
UN-No. (IMDG) : Not regulated.
UN-No. (IATA) : Not regulated.
UN-No. (ADN) : Not regulated.
UN-No. (RID) : Not regulated.

14.2. UN proper shipping name

Proper Shipping Name (ADR) : Not regulated.
Proper Shipping Name (IMDG) : Not regulated.
Proper Shipping Name (IATA) : Not regulated.
Proper Shipping Name (ADN) : Not regulated.
Proper Shipping Name (RID) : Not regulated.

14.3. Transport hazard class(es)

ADR
Transport hazard class(es) (ADR) : Not regulated.
IMDG
Transport hazard class(es) (IMDG) : Not regulated.
IATA
Transport hazard class(es) (IATA) : Not regulated.
ADN
Transport hazard class(es) (ADN) : Not regulated.
RID
Transport hazard class(es) (RID) : Not regulated.

14.4. Packing group

Packing group (ADR) : Not regulated.
Packing group (IMDG) : Not regulated.
Packing group (IATA) : Not regulated.
Packing group (ADN) : Not regulated.
Packing group (RID) : Not regulated.

14.5. Environmental hazards

Dangerous for the environment : No
Marine pollutant : No

14.6. Special precautions for user

Overland transport
Not regulated.

Transport by sea
Not regulated.

Air transport

Not regulated.

Inland waterway transport

Not regulated.

Rail transport

Not regulated.

14.7. Maritime transport in bulk according to IMO instruments

IBC code : Not applicable.

SECTION 15: Regulatory information**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture****15.1.1. EU-Regulations**

Contains no substance on the REACH candidate list.

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)

Contains no substance subject to Regulation (EU) No 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants.

15.1.2. National regulations

Not applicable.

15.2. Chemical safety assessment

Not applicable.

SECTION 16: Other information

Other information : The recommendations for mechanical processing and installation of the above-mentioned product must be followed in accordance with the manufacturer's instructions.
For more information, see EQUITONE Planning and Application.
Under normal conditions of storage and use, hazardous decomposition products should not be produced
